Note 1 - Organization

 $In \ July\ 2008, the\ Executive\ Directors\ of\ the\ World\ Bank, here in\ define\ das\ the\ International\ Bank\ for\ Reconstruction$

and Development (IBRD) and the International Development Association (IDA), approved the creation of the

Climate Investment Funds (CIF). The CIF is designed to provide interim scaled-up funding to help developing

countries in their efforts to mitigate rises in greenhouse gas emissions and to adapt to climate change.

The CIF is jointly implemented by the following multilateral development banks (MDBs): African Development Bank

(AfDB); Asian Development Bank (ADB); European Bank for Reconstruction and Development (EBRD); Inter-

American Development Bank (IADB); International Finance Corporation (IFC); and the World Bank.

The CIF consists of two trust funds: the Clean Technology Fund (CTF) and the Strategic Climate Fund (SCF). IBRD

serves as Trustee (the Trustee) and administrator for both. Each of the MDBs listed above implements projects

related to the CTF and SCF and administers funds transferred to it by the Trustee. The World Bank also serves as an

Implementing Entity (IE) for the CTF.

The CTF finances scaled-up demonstration, deployment, and transfer of low-carbon technologies for significant

greenhouse gas reductions. The focus is on piloting investment in countries or regions with opportunities for large

greenhouse gas abatement.

The SCF finances targeted programs in developing countries to pilot new climate or sectoral approaches with

scaling-up potential.

The CTF is governed by the CTF Trust Fund Committee, which oversees the operations and activities of the CTF. The

CTF Trust Fund Committee is composed of contributor and recipient representatives, together with representatives

from the World Bank, and the other MDBs. The World Bank and the other MDB representatives are non-decision

making members. Decisions are made by consensus of the decision making members of the CTF Trust Fund

Committee.

In order to facilitate CIF collaboration, coordination and information exchange among the MDBs, a committee

comprising representatives of the MDBs, including the World Bank, was established (the MDB Committee) and is

responsible for duties such as identifying specific areas in which the MDBs may harmonize their climate change

programs, reviewing recommendations proposed by the Administrative Unit on program criteria for approval by

the CTF Trust Fund Committee, and serving as a forum to ensure effective operational coordination among the

MDBs.

The Administrative Unit supports the work of the CIF, including the CTF, and also supports the CTF Trust Fund Committee and other bodies of the CIF. The Administrative Unit is housed in the Washington, D.C. offices of the World Bank and comprises a team of World Bank professional and administrative staff. The Administrative Unit's responsibilities include the preparation of documentation for review by the CTF Trust Fund Committee, the formulation of recommendations on program criteria and priorities, and the preparation of the annual consolidated report on the CTF's activities, performance and status of implementation, in addition to managing partnerships and external relations.

In its capacity as the Trustee of the CTF, IBRD established a trust fund (World Bank Reference TF069011) for the CTF under administration by IBRD as Trustee (the "Trust Fund") on February 25, 2009 (date of inception, hereinafter referred to as "Inception"), to receive contributions from contributors. The Trust Fund holds the assets of the CTF, pursuant to the terms of the contribution agreements/arrangements entered into with the contributors. In accordance with the decisions taken by the CTFTrust Fund Committee, or the MDB Committee where relevant, and subject to the availability of applicable resources in the Trust Fund and the terms of the contribution agreements/arrangements, the Trustee makes commitments and transfers the CTF resources, in the manner agreed with the MDBs. In addition, in its other capacity as an IE of the CTF, the World Bank has established a separate trust fund (i.e., the CTF trust fund under administration by the World Bank as IE) to receive CTF funds transferred by the Trustee from this Trust Fund.

These special purpose financial statements report solely upon the activities of the Trust Fund. Separate special purpose financial statements are prepared for (i) the CTF trust fund under administration by the World Bank as IE, (ii) the SCF trust fund under administration by IBRD as Trustee, and (iii) the SCF trust fund under administration by the World Bank as IE. In addition, these special purpose financial statements do not include any activities undertaken by other MDBs as IEs of the CTF and SCF, as they are reported separately.

Note 2 - Significant Accounting Policies

Basis of Special Purpose Presentation — These special purpose financial statements have been prepared for the specific purpose of reflecting the sources and applications of contributions received from contributors and are not intended to be a presentation in conformity with U.S. generally accepted accounting principles (U.S. GAAP) or International Financial Reporting Standards (IFRS) and are solely for the information and use of the CTF Trust Fund Committee, IBRD as the Trustee of the Trust Fund, and the contributors to the Trust Fund, and are not intended to be and should not be used by anyone other than these specified parties.

Basis of Accounting — As approved by the CTF Trust Fund Committee, the Trust Fund's financial statements are prepared on the special purpose basis of accounting. The Trust Fund's special purpose financial statements are prepared on the accrual basis, with the exception of (i) administrative budget expenses, which are accounted for on a cash basis; (ii) interest income earned on MDBs grant funds, except the CTF funds held by World Bank, which is also accounted for on a cash basis; and (iii) reflows and returns of CTF funds disbursed by MDBs, such as principal repayments, interest payments and other reflows that are recorded by the Trust Fund when the cash is received by the MDBs from the project recipients and reported to the Trustee by the MDB. The specific accounting policies are as described in more detail below:

Contributions and contributions receivable – The Trust Fund holds all paid in contributions, and the Trustee manages them in accordance with the contribution agreements/arrangements with the contributors and based on the decisions made by the CTF Trust Fund Committee.

Contributors may make contributions in the form of (i) a grant contribution, (ii) a capital contribution, or (iii) with the consent of all contributors to the Trust Fund and the Trustee, a loan contribution.

A grant contribution to the CTF may be used to finance grants, concessional loans and other financial products, such as guarantees. Capital contributions to the CTF may be used to finance concessional loans and other financial products, such as guarantees, but not grants. Loan contributions to the CTF may be used to finance concessional loans and other financial products, such as guarantees, but not grants, on terms no more concessional than the loan contributions. The term "capital contribution" defines the permitted use of funds, and does not mean that share capital or equity instruments have been issued to contributors in return for capital contributions received.

Upon termination of the Trust Fund, any remaining unallocated funds, including related reflows and returns of other funds, and net investment income, if any, held by the Trust Fund will be returned to contributors on a prorata basis, to be calculated using specific measurements, which differ for grant contributors and capital contributors, as defined in the relevant contribution agreements/arrangements.

December 31, 2020 and December 31, 2019

All amounts expressed in U.S. dollars unless otherwise noted

Upon effectiveness of a signed contribution agreement/arrangement between a contributor and the Trustee, grant and capital contributions are recorded as revenue in the special purpose statements of activities. Contributions receivable are reported at nominal value, net of an allowance for doubtful receivables, if any.

When contributions receivable are overdue beyond dates specified in the contribution agreements/arrangements, the Trustee reduces the carrying value by recognizing a provision and an allowance for doubtful receivables as specified in the table below:

Contributions Receivable				
Period in arrears	Allowance percentage			
24 months	50%			
36 months	100%			

Loans payable and related interest — Loan contributions are recorded as loans payable in the special purpose statements of financial position upon execution of a loan agreement between a contributor and the Trustee and receipt of the cash by the Trustee. Loan contributors provide loans to the Trust Fund at a rate of 0.75% interest per annum, payable semi-annually, with a 20 year maturity and a 10 year grace period on principal repayment. Therefore, repayments on principal will begin from year 11 and last through year 20. Principal repayments of 5% of the loan amount will be made semi-annually. Contributors that have made loan contributions to the Trust Fund will receive repayments based on the agreed loan terms.

Project expense, net and project liabilities – The CTF Trust Fund Committee approves project funding to be transferred by the Trust Fund to the MDBs to fund CTF projects. Project expenses and project liabilities to the MDBs are recognized upon the CTF Trust Fund Committee's approval. Project liabilities are paid to the MDBs upon their request in accordance with the Financial Procedure Agreements (the FPAs) between the Trustee and the MDBs. Project liabilities may be denominated in either U.S. dollars or Euro.

MDB fees expense, net and MDB fees payable – In accordance with the FPAs, fees are paid to the MDBs to cover their expenses associated with the project cycle management of CTF projects. The Trust Fund recognizes MDB fee expenses and MDB fees payable upon approval by the CTF Trust Fund Committee. MDB fees are paid to the MDBs upon their request in accordance with the FPAs.

December 31, 2020 and December 31, 2019

All amounts expressed in U.S. dollars unless otherwise noted

Administrative budget expense – The CTF Trust Fund Committee, on an annual basis, approves the budget for administrative services to be paid by the Trust Fund. The administrative budget primarily covers the costs incurred by the Trustee, the Administrative Unit and the MDBs for the performance of their administrative services and other activities in support of the CTF. Once approved, and further allocated by the MDB Committee in the case of country programming budgets, administrative budget amounts pertaining to the Trustee, the Administrative Unit and the MDBs are paid upon their request. The administrative budget expense is reported on a cash basis.

Net investment income – Investment income earned on CTF funds held by the World Bank and IFC as IE in the Pool (Note 3) is credited directly in the Trust Fund on an accrual basis. Consequently, net investment income comprises the investment income earned by this Trust Fund, the investment income earned by the CTF Trust Fund under administration by the World Bank as IE, and the investment income earned by the CTF Trust Fund under administration by IFC as IE. Net investment income includes realized and unrealized investment income/loss.

Interest income earned on MDB grant funds— In accordance with the FPAs, interest income earned on CTF funds administered and held by the other MDBs as IEs shall be returned to the Trust Fund upon the Trustee's request. Interest income from other MDBs is recorded on a cash basis.

Returns/reflows of CTF funds disbursed by MDBs — Upon transfer of funds to MDBs for project expense, MDBs may disburse CTF funds to project recipients in the form of loans or other financial products, such as guarantees. In accordance with the FPAs, repayments of principal, interest, fees and other flows of funds from MDB loans and other financial products issued using CTF funds are reported and remitted by the MDB to the Trustee. These amounts are reflected as receivables and income from MDBs in the Trust Fund when the cash is received by the MDBs from the recipients and reported to the Trustee by the MDBs.

Translation of currencies — The Trust Fund's special purpose financial statements are presented in U.S. dollars, which is the Trust Fund's functional and presentation currency. Transactions in currencies other than U.S. dollars are reported at the market rates of exchange in effect on the date of the transaction. At the end of each reporting period, assets and liabilities that are not denominated in U.S. dollars are revalued at the market rate of exchange prevailing at the end of the reporting period. Any adjustment resulting from currency exchange rate changes is recognized as foreign currency exchange gain or loss.

Use of estimates – The preparation of financial statements requires management to make estimates and assumptions based upon information available as of the date of the special purpose financial statements. Actual results could differ from these estimates. Areas in which management makes estimates and assumptions in determining the amounts to be recorded include the fair value of financial instruments within the Pool (Note 3).

December 31, 2020 and December 31, 2019

All amounts expressed in U.S. dollars unless otherwise noted

Note 3 – Share of the Cash and Investments in the Pool

Amounts paid into the Trust Fund but not yet disbursed, are managed by IBRD, which maintains an investment portfolio (the Pool) for all of the trust funds administered by IBRD, IDA, IFC, the Multilateral Investment Guarantee Agency, and the International Centre for Settlement of Investment Disputes (collectively, the World Bank Group).

IBRD, on behalf of the World Bank Group, maintains all trust fund assets separate and apart from the funds of the

World Bank Group.

The Pool is a trading portfolio and is reported at fair value, with realized and unrealized gains/losses included in net

investment income. The share in the pooled cash and investments represents the Trust Fund's share of the Pool's

fair value at the end of each reporting period. The Trust Fund's share in the Pool is not traded in any market;

however, the underlying assets within the Pool are reported at fair value. All investment decisions are made and

performance is monitored at the Pool level.

Generally, the Pool includes cash and liquid financial instruments such as government and agency obligations, time

deposits, money market securities, and asset-backed securities. Additionally, the Pool includes equity securities,

derivative contracts such as currency forward contracts, currency swaps, interest rate swaps, and contracts to

purchase or sell mortgage-backed securities to-be-announced (TBAs). Payables and receivables associated with

the investment activities are also included in the Pool. The Pool may also include securities pledged as collateral

under repurchase agreements, receivables from resale agreements and derivatives for which it has accepted

collateral.

The Pool is divided into sub-portfolios to which allocations are made based on fund-specific investment horizons,

risk tolerances and/or other eligibility requirements for trust funds with common characteristics as determined by

IBRD, on behalf of the World Bank Group. An individual sub-portfolio may hold all or a portion of the types of

financial instruments held by the Pool.

The Trust Fund's share of the cash and investments in the Pool, has a fair value of \$2,745,824,918 and

\$2,600,013,343 as of December 31, 2020 and December 31, 2019, respectively.

The contribution for the period from inception to December 31, 2020 of £1,329,921,760 made by the United Kingdom to the Trust Fund was in the form of a transfer of the receivable from the SCF to the CTF pursuant to the contribution arrangement between IBRD as Trustee of the SCF and the CTF and the United Kingdom of Great Britain and Northern Ireland, which authorized the transfer to the CTF.

The contribution for the period from inception to December 31, 2020 of ¥92,655,000,000 made by Japan to the Trust Fund was in the form of a transfer from the SCF to the CTF pursuant to the contribution agreement between IBRD as Trustee of the SCF and the CTF and the Government of Japan, which authorized the transfer to the CTF.

Grant contribution of \$95,232,000 (€80,000,000) and Capital contribution of \$263,540,000 (£200,000,000) were received during the fiscal year ended December 31, 2020 and December 31, 2019 respectively. The contributions receivable was \$272,980,000 (£200,000,000) and \$264,200,000 (£200,000,000) as of December 31, 2020 and December 31, 2019, respectively. A summary of loan contributions is presented in Note 10.

Contributions receivable are expected to be received based on installment schedules in the respective contribution agreements/arrangements. Allowances for doubtful receivables are made in accordance with the policy specified in Note 2. As of December 31, 2020 and December 31, 2019, no allowance has been established as none of the contributions receivable were more than 24 months past due. Outstanding contributions are expected to be received in accordance with the terms established in the respective contribution agreement/arrangement.

December 31, 2020 and December 31, 2019

All amounts expressed in U.S. dollars unless otherwise noted

Note 5 - Net Investment Income

Net investment income consists of the World Bank and IFC as IEs and CTF trust funds' allocated share of the following: interest income earned by the Pool, realized gains/losses from sales of securities and unrealized gains/losses resulting from recording the assets held by the Pool at fair value.

Note 6 – Returns/Reflows of CTF Funds

Note 11 – Net Trust Fund Resources

The Trust Fund has an accumulated deficit of \$144,257,294 and \$95,917,012 as of December 31, 2020 and December 31, 2019 respectively. This deficit is the result of the cumulative excess of expenses over revenues due to timing differences between when project expenses and contributions are recognized under the special purpose basis of accounting, and because certain contributions are received in the form of loans from contributors. A positive net trust fund resources will be presented in future periods as return/reflows are paid into the Trust Fund by the MDBs. The contributors' loan agreements provide that the Trustee may defer any portion of the debt service to the loan contributors should there be insufficient resources designated in the Trust Fund to service such payments. Losses on defaults on outgoing loans from the Trust Fund not covered by net income will be shared by all Contributors on the same basis, in proportion to their overall contributions to the Trust Fund (excluding the portion, if any, used for outgoing grants) pursuant to the terms of the Standard Provisions of the Contribution Agreements.

Note 12 – Contingencies

The outbreak of the COVID-19 pandemic has resulted in governments worldwide enacting emergency measures to combat the spread of the virus. These measures, which include the implementation of travel bans, self-imposed quarantine periods and social distancing, have caused material disruption to businesses globally, resulting in an economic slowdown. Governments and central banks have reacted with significant monetary and fiscal interventions designed to stabilize economic conditions.

In light of COVID-19, the Trust Fund faces additional credit, market and operational risks. The duration of the COVID-19 pandemic remains difficult to predict at this time, as are the extent and efficacy of economic interventions by governments and central banks. The length and severity of the pandemic and the related developments, as well as its impact on the Trust Fund's financial position and results of operations cannot be reasonably estimated at this point in time and continue to evolve. IBRD, as Trustee, continues to monitor the developments and to manage the risks associated with the operation of the Trust Fund consistent with the terms of the contribution agreements/arrangements.

Note 13 – Subsequent Events

Management has evaluated subsequent events through June 2, 2021, the date the special purpose financial statements were issued. There were no subsequent events that required adjustment or disclosure.
