Introduction

The Global Partnership for Education Fund (GPEF) was established as a Financial Intermediary Fund in 2011 as part of the rebranding process of the Education for All-Fast Track Initiative (EFA-FTI), which started in 2002. The World Bank acts as the Trustee for the GPEF.

The Trustee provides administrative and financial services to the GPE Board and Contributors by receiving contributions from Contributors, investing liquid assets pending cash transfer, and transferring funds to Grant Agents. Working closely with the GPE Secretariat, the Trustee also records funding decisions made by the GPE Board.

The Trustee is required to provide periodic reports to the Board on the financial status of the Trust Fund¹. This report is prepared based on financial information as of March 31, 2022.

¹ The Trustee's financial status reports are publicly available at: www.worldbank.org/fiftrustee.

3. Investment Management

ASSET MIX⁴

Funds held in trust by the World Bank (as the Trustee) are maintained in a commingled investment portfolio (the “Pool”) for all trust funds administered by the World Bank.

The World Bank employs the Conditional Value-at-Risk (CVaR) measure as the risk constraint in the management of trust funds. GPEF funds are managed such that the expected maximum loss, as measured by the CVaR, at the portfolio’s investment horizon, is not to exceed 1% with 99% confidence.

INVESTMENT INCOME

GPEF funds are invested in a short and medium horizon portfolio of the World Bank’s trust fund investment pool. This portfolio comprises investments in government bonds and money markets with an investment horizon of up to three years. The GPEF Trust Fund liquid portfolio (which totaled approximately USD 884.6 million at end-March 2022) earned approximately USD 86.8 million in investment income since inception. The portfolio witnessed negative returns of -0.55% during the first quarter of 2022. The portfolio’s returns were in the negative territory due to higher yields during the period. The month of March ended with steep rise in yields and flatter yields curve. The 2, 5, 10, and 30-year US treasury yields increased 90, 74, 51, and 29 bps respectively during March 2022.

*non-annualized

FOREIGN EXCHANGE (FX) RISK MANAGEMENT

The World Bank in its capacity as the Trustee for the GPE Fund is committed to help GPE manage its FX exposure. Further to the proposal presented in December 2018 to the GPE Board for establishing an FX hedging program within an overarching FX Exposure Management Framework, the Trustee offered a “Two-Tier” proposal for discussion with the GPE Board in November and December 2021. Based on the feedback from GPE donors, the Trustee refined the proposal, and presented it to GPE donors and FRC during May and June 2022, and will be presenting the same for the GPE Board’s approval in June 2022.

⁴ The Corporate Securities category includes AAA-rated Euro Agency and government bonds/notes only and does not include corporate bonds.

ESG SUMMARY REPORT – GPEF INVESTMENT PORTFOLIO

As per the investment management strategy implemented by the World Bank, the funds held in trust benefit from the approach to Sustainable and Responsible Investment (SRI), which considers and incorporates Environmental, Social, and Governance (ESG) factors into Trustee's investment processes. The implementation of ESG Integration falls within the purview of existing authorizations by the World Bank Board. Based on the endorsement by the World Bank management, starting from July 2019, the Trustee has applied ESG Integration as the default SRI approach for all portfolios managed by the World Bank, including for the GPEF Trust Fund assets.

Considering and incorporating ESG factors into investment processes should, all things being equal, lead to portfolios that have stronger ESG profiles compared to portfolios that do not explicitly consider these ESG issues. ESG Integration has become part of the existing investment processes and is intended to help fulfil the existing investment objectives. The application of ESG Integration as part of the investment process would not involve any changes in the current investment objectives or risk limits for the GPEF Trust Fund portfolio.

The GPEF investment portfolio is primarily comprised of short-term high-grade fixed-income securities (sovereign, supranational and agency securities and bank deposits), and as at March 31, 2022, the portfolio has an ESG Quality Score* of 7.46 and an ESG Rating* of AA. Based on its ESG positioning in the MSCI ESG Fund Ratings Universe (upper right of Figure 1), which is deemed to be the more consistent reference indicator, GPEF's investment portfolio falls in the top decile of the ratings universe. This reflects capability of GPEF portfolio's holdings in terms of managing key medium to long term risks and opportunities arising from Environmental, Social and Governance factors.

** Note: ESG Quality Score is based on MSCI ESG Ratings and measured on a scale of 0 to 10 (worst to best) following a rule-based methodology. ESG Ratings Momentum represents the percentage of a portfolio's market value coming from holdings that have had an ESG Ratings upgrade, and those with a downgrade, since their previous ESG Rating assessment. The ESG Quality Score is calculated as a weighted average of ESG scores of individual holdings adjusted by ESG Ratings Momentum and ESG laggards (if any). The weight applied to the individual ESG scores is determined by the portfolio weight of individual holdings as of the reporting date. Based on the above, the ESG Quality Score, which is subject to potential skewing effect from any factor in the calculation, could slightly vary between different reporting dates along with changes in individual holdings and their portfolio weights as well as changes in ESG Ratings Momentum. Please see details on MSCI ESG Ratings Methodology [here](#).*
