Introduction

The information contained in this report is prepared based on financial information of the AgResults Trust Fund as of June 30, 2015.

AgResults was established in 2012 to enhance smallholder welfare and improve food security for the poor and vulnerable through the use of "pull mechanisms"¹ in agriculture.

This report is produced by the Trustee in accordance with the Trustee's role as set forth in the Contributions Agreement which states that:

"[...] the Trustee shall report to the Steering Committee semi-annually on the financial status of the Trust Fund including information on the status of Contributions, investment income, commitments, transfers and funds available for allocation by the Steering Committee".

This report provides (i) a snapshot of the financial situation of the AgResults Trust Fund since its inception to June 30, 2015, (ii) the status of pledges and contributions, and (iii) the details of financial activities of the AgResults Trust Fund.

¹ Pull mechanisms are results-based financial incentives rewarding successful innovations and their adoption. They are designed to overcome market failures, and encourage private and public sector innovators to develop products and services that they would not otherwise bring to the market.

3. Asset Mix and Investment Income

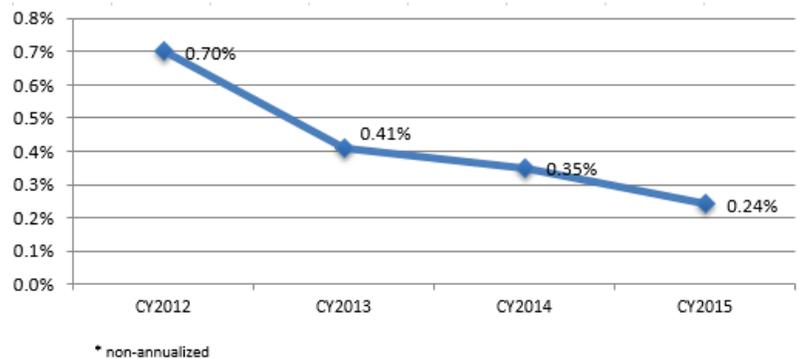

ASSET MIX

Cash assets held in trust by the World Bank (as the Trustee) are maintained in a commingled investment portfolio (the “Pool”) for all trust funds administered by the World Bank. The assets in the Pool are managed in accordance with the investment strategy established for all trust funds administered by the World Bank. The Pool is actively managed so that the probability of incurring negative returns is no more than 1% over the applicable investment horizon.

INVESTMENT INCOME

The AgResults funds are invested in a short horizon portfolio of the World Bank’s trust fund investment pool. This portfolio comprises investments in government bonds and money markets with an investment horizon of up to one year. The AgResults Trust Fund liquid portfolio (which totaled approximately USD 82.6 million at end-June 2015) has returned 0.24% through the calendar year to June 30, 2015 and earned approximately USD 0.5 million in investment income since inception.
