Introduction

The information contained in this report is prepared based on financial information as of December 31, 2020.

The CGIAR Trust Fund (the “Fund”) was established as a Financial Intermediary Fund (FIF) in March 2017, through a Trustee Agreement between the World Bank as Trustee and the CGIAR System Organization. This report is produced by the Trustee in accordance with the Trustee’s role in the CGIAR Trust Fund as set forth in Trustee Agreement section 9 which states:

“The Trustee shall maintain separate records and ledger accounts in respect of the funds deposited in the Trust Fund account and transfers made therefrom. Unless otherwise agreed between the Trustee and the System Management Office (following the System Management Office’s consultation with the System Council and the System Management Board, as appropriate), the Trustee shall provide a quarterly report to the System Management Office and the Funders on the receipts in, transfers from and fund balance of the Trust Fund in the relevant Holding Currency. The System Management Office shall forward such report to the System Council and the System Management Board. The System Organization shall also make such report available on its website.”

5. Asset Mix and Investment Income

ASSET MIX

Funds held in trust by the World Bank (as the Trustee) are maintained in a commingled investment portfolio (the “Pool”) for all trust funds administered by the World Bank. The assets in the Pool are managed in accordance with the investment strategy established for all trust funds administered by the World Bank. The CGIAR Trust Fund funds are invested in cash portfolio of the World Bank’s Trust Fund investment pool. This portfolio comprises bank deposits and investments in money market instruments with an investment horizon of less than 3 months.

On July 1, 2015, the World Bank formally adopted the Conditional Value-at-Risk (CVaR) measure as the risk constraint in the management of trust funds. Funds are managed such that the expected maximum loss, as measured by the CVaR, at the portfolio’s investment horizon, is not to exceed 1% with 99% confidence.

INVESTMENT RETURNS

Funds Held in Trust are invested in a cash portfolio of the World Bank’s Trust Fund investment pool. This portfolio comprises bank deposits and investments in money market instruments with an investment horizon of less than 3 months. Typically, funds invested in a cash portfolio represent working capital and funds that are expected to be disbursed in less than a year. As of December 31, 2020, the CGIAR Trust Fund has earned investment income of approximately USD 2.3 million on the undisbursed balance of the CGIAR Trust Fund. The CGIAR Trust Fund liquid portfolio has returned 0.74% through the calendar year 2020. Given the unpredictability of CGIAR Trust Fund inflows and outflows, CGIAR liquidity balances cannot be currently invested in longer-term portfolios.
