Introduction

The Climate Investment Funds (CIF) were established in 2008 and its financial architecture is rooted in two trust funds. The Clean Technology Fund (CTF) aims to provide scaled-up financing to contribute to the demonstration, deployment, and transfer of low-carbon technologies with a significant potential for long-term greenhouse gas emissions savings. The Strategic Climate Fund (SCF) aims to provide financing to pilot new development approaches or scale-up activities aimed at a specific climate change challenge or sectoral response. The SCF currently finances three such programs: The Forest Investment Program (FIP), Pilot Program for Climate Resilience (PPCR), and Scaling Up Renewable Energy in Low-Income Countries Program (SREP).

The World Bank acts as the Trustee for the CIFs. This report is produced by the Trustee based on financial information as of September 30, 2018, in accordance with the Trustee's role as set forth in the Governance Framework for the CTF which states:

“The Trustee will provide to the CTF Trust Fund Committee regular reports on the financial status of the Trust Fund, as agreed between the Trustee and the CTF Trust Fund Committee.”

This report provides (i) a snapshot of the financial status of the CTF Trust Fund as of September 30, 2018; (ii) the status of pledges and contributions, and (iii) the details of financial activities of the CTF Trust Fund.

CTF Trust Fund Financial Summary as of September 30, 2018¹

Pledges and Contributions:

As of September 30, 2018, nine contributors pledged USDeq. 5.44 billion to the CTF Trust Fund, which has been fully finalized through signed Contribution/Loan Agreements/Arrangements. Of the total amount of executed Contribution/Loan Agreements/Arrangements, the Trustee has received USDeq. 5.44 billion in cash and promissory notes.

Investment Income and Return of Other Funds:

Since inception through September 30, 2018, the CTF Trust Fund earned investment income of approximately USD 191 million on the undisbursed balance of the Trust Fund. In addition, the return of other funds amounted to USDeq. 11.9 million.

Trustee Commitments:

The Trustee makes commitments in the CTF Trust Fund based on the funding approvals of the CTF Trust Fund Committee. Cumulative net commitments made by the Trustee amounted to USDeq. 5.07 billion. This represents an increase of USDeq. 85 million due to the net commitment approvals since March 31, 2018. Of the total amount approved, USDeq. 4.95 billion was for projects and project preparation activities, USD 38.33 million was for MDB costs for project implementation and supervision services (MPIS costs), and USD 76.65 million was for administrative expenses of the CTF.

Cash Transfers:

Cash transfers are made to MDBs² on an as-needed basis to meet their projected disbursement requirements. The Trustee has transferred USDeq. 3.24 billion, of which net USDeq. 2 million was transferred between April 1, 2018 and September 30, 2018. As a result, USDeq. 1.83 billion remains payable to MDBs as of September 30, 2018.

Cash transfers related to the debt service payments to loan contributors is USDeq. 59.9 million as of September 30, 2018.

Funds Held in Trust:

Funds Held in Trust reflect financial activities related to donor payments (cash and promissory notes), encashment of promissory notes, investment income, cash transfers, and the revaluation of the balance of promissory notes at month end. Funds Held in Trust as of September 30, 2018, amounted to USDeq. 2.40 billion, out of which USDeq. 101 million is withheld for commitment purposes to mitigate the effects of foreign exchange rate movements on outstanding commitments. In addition, the net balance available for payments to the loan contributors from the net reflows is

¹ Figures may not add up due to rounding.

² The CIF funds are disbursed through the Multilateral Development Banks (MDBs) to support effective and flexible implementation of country-led programs and investments. The MDBs are the African Development Bank (AfDB), the Asian Development Bank (ADB), the European Bank for Reconstruction and Development (EBRD), the Inter-American Development Bank (IADB), the International Bank for Reconstruction and Development (IBRD)/International Development Association (IDA) (the World Bank), and the International Finance Corporation (IFC).

USDeq. 95.3 million of which USDeq. 8 million is to pay for the principal and interest payments due to the loan contributors in the next 12 months.

Funding Availability for Trustee Commitments:

After making provisions for projected country programming budget (USD 1.54 million), and the multi-year Learning & Knowledge exchange and special initiatives budget amount (USD 1.33 million), the funding available for Trustee Commitments is USDeq. 475.10 million, of which, USDeq. 123.50 million is the net investment income available for future admin expenses and loan losses. The balance USDeq. 351.60 million is available for Program and Project commitments.

Potential Available Resources (FY18-23):

The potential future resources from release of the currency reserve amount is USDeq. 101.2 million. The CTF TFC has approved a notional set-aside of USD 520 million for the Dedicated Private Sector Program (DPSP III), of which USDeq. 157.5 million has been approved for Projects or programs, and the balance amount of USDeq. 362.5 million is available for commitment approval. Funding will be available to make commitments under these investment plans only after the release of currency reserves (i.e. requiring encashment of outstanding promissory notes – see below).

Realized/Unrealized Exchange rate gain or loss:

The unencashed promissory notes in non-USD currencies are subject to exchange rate risk. Due to changes in the GBP/USD exchange rate from April 1, 2018 to September 30, 2018, the net realized/unrealized loss in the USDeq. value increased by USDeq. 52.38 million. The overall unrealized loss of USDeq. 118.04 million results in a decrease in the funding available for Trustee commitments.

- The above table shows the summary of pledges/promissory notes outstanding, contributions finalized, Cash and Promissory Note receipts and promissory notes outstanding. Pledges represent a Contributor's expression of intent to make a contribution and form the basis for the endorsement of CTF Investment Plans by the CTF Trust Fund Committee.

As of September 30, 2018, total pledges and contributions amounted to USDeq. 5.44 billion based on Contribution/Loan Agreements/Arrangements entered into by the Trustee with nine contributors and the total amount is received in cash and Promissory Notes as of September 30, 2018.

2. Asset Mix and Investment Income

The undisbursed cash balance of the CTF Trust Fund is maintained in a commingled investment portfolio (“Pool”) for all trust funds managed by IBRD. The Pool is managed actively and conservatively with capital preservation as the over-arching objective.

ASSET MIX

CTF Trust Fund assets are invested across three of the World Bank Trust Fund’s investment model portfolios, (“Tranche 0” for short term working capital needs, “Tranche 1” with an investment horizon of one year, and “Tranche 2” with an investment horizon of three years). The latter two tranches aim to optimize investment returns subject to capital preservation with a high degree of confidence (based on statistical models) over the respective investment horizon. Although actual future returns will depend on market conditions, the Trust Fund Investment Pool portfolio is actively monitored and adjusted to preserve development partner funds over the investment horizons. Over shorter periods however, market volatility may result in negative actual or ‘mark-to-market’³ returns.

On July 1, 2015, the World Bank formally adopted the Conditional Value-at-Risk (CVaR) measure as the risk constraint in the management of trust funds. Funds are managed such that the expected maximum loss, as measured by the CVaR, at the portfolio’s investment horizon, is not to exceed 1% with 99% confidence.

The portfolio allocation by asset class has the largest allocations to government securities, money market instruments, mortgage backed securities (MBS), agency and asset backed securities.

Notes: 1) The negative position in swaps is primarily due to changes in foreign currency exchange (FX) rates in cross currency basis swaps. Such swap instruments are used to implement currency hedges on bond positions within the portfolio. These hedges remain in place.

³ Mark-to-market returns or losses represent returns or losses generated through an accounting entry rather than the actual sale of a security.

*YTD non-Annualized

INVESTMENT RETURNS

The CTF Trust Fund achieved a calendar year-to-date 2018 return of 0.74%. Returns in the first three quarters of 2018 were driven by headline risks related to the threat of escalating trade tensions, geopolitics and the knock-on effects on global growth.

ADJUSTMENTS FOR CHANGES IN MARKET CONDITIONS

As a gradual move to higher rates in the coming years is expected, the outlook for fixed-income investments continues to be for low returns, as increases in market interest rates could result in unrealized (i.e., mark-to-market) losses for fixed income returns in general. Given the challenging environment for fixed income investments, the Trustee has taken steps to reduce the interest rate sensitivity (known as “duration”) of the Trust Fund Investment Pool portfolio to limit the impact of potential future interest rate increases. The short maturity/duration nature of the portfolio gives space and flexibility to tactically move into higher yields going forward. Additionally, efforts are underway by the Trustee to enable investments in a broader universe of assets to achieve greater diversification of portfolio risks and increase returns. Diversification opportunities include emerging market sovereign bonds, covered bonds and new money market instruments.

3. Cumulative Net Commitments

Total Net Commitments by the Trustee by Activity

Since inception to September 30, 2018, the net commitments made by the Trustee based on the funding approvals of CTF Trust Fund Committee totaled USD eq. 5.07 billion. Projects, including project preparation grants represent about 98%, MPIS costs 1%, administrative budgets for the CIF Administrative Unit, and the Trustee and the MDBs 1%.

CTF FUNDING LIMITS

In accordance with the Principles regarding Contributions to the CTF, outgoing financing cannot be more concessional than contributed funds, i.e.:

- (a) Grant Contributions may be used to finance grants, concessional loans and other financial products, such as guarantees.
- (b) Capital Contributions may be used to finance concessional loans and other financial products, such as guarantees;
- (c) Loan Contributions may be used to finance loans and other financial products, such as guarantees, on terms no more concessional than the terms of the contributions.

This chart shows pledges by contribution type and CTF funding (excluding projects in the pipeline) by financing product. As shown in the chart, funding decisions made to date adhere to the funding limits set by the incoming funding types from the Contributors.
