Independent Auditors' Report

International Development Association as Administrator of the Debt Relief Trust Fund

We have audited the accompanying statement of receipts, disbursements and fund balance (the Statement) of the Debt Relief Trust Fund (the Trust Fund) under administration by the International Development Association (the Administrator) for the year ended June 30, 2014, and the related notes to the Statement.

Management's Responsibility for the Statement

Management is responsible for the preparation and fair presentation of the Statement in accordance with the modified cash basis of accounting described in Note 2; this includes determining that the modified cash basis of accounting is an acceptable basis for the preparation of the Statement in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the Statement that is free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on the Statement based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and International Standards on Auditing. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the Statement is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the Statement. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the Statement, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the Statement in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the Statement.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the Statement referred to above presents fairly, in all material respects, the receipts, disbursements and fund balance of the Trust Fund for the year ended June 30, 2014, in accordance with the modified cash basis of accounting described in Note 2.

Basis of Accounting

We draw attention to Note 2 of the Statement, which describes the basis of accounting. The Statement is prepared on the modified cash basis of accounting, which is a basis of accounting other than U.S. generally accepted accounting principles or International Financial Reporting Standards. Our opinion is not modified with respect to this matter.

Other Matters

Our opinion is not modified with respect to this matter.

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the Statement as a whole. The supplementary information included in the Supplemental Schedules (i) through (vii) is presented for purposes of additional analysis and is not a required part of the basic financial statements. NOTES TO THE STATEMENT OF RECEIPTS, DISBURSEMENTS AND FUND BALANCE

June 30, 2014

All amounts expressed in U.S. dollars unless otherwise noted

Note 1 - Organization and operations

On November 7, 1996 (date of inception, hereinafter referred to as 'Inception'), the Executive Directors of the International Bank for Reconstruction and Development (IBRD) and the International Development Association (IDA) approved the establishment of the Heavily Indebted Poor Countries (HIPC) Debt Initiative Trust Fund to be administered by IDA (the Administrator) (Original Framework). The HIPC was renamed as Debt Relief Trust Fund (the Trust Fund), per an amendment dated October 6, 2008 (Amendment). The Trust Fund provides financial support to participating multilateral credit institutions to assist them in achieving their agreed share of debt relief to eligible HIPCs on debt owed to such institutions. The Trust Fund can provide financial support for the prepayment of the debt, the coverage of debt service as it becomes due, the purchase and subsequent forgiveness of debt, or other arrangements as the Administrator deems appropriate, which have the effect of reducing the present value of the debt service owed on such debt. The resources available in the Trust Fund consist of contributions received from participating multilateral creditors and bilateral donors, and investment income earned on undisbursed contributions.

In September 1999, the Development and Interim Committees of IBRD/IDA and the International Monetary Fund (IMF) endorsed, subject to the availability of funding, enhanced debt relief under the HIPC Debt Initiative (Enhanced Framework). On January 27, 2000, the Executive Directors of IDA approved modalities for an Enhanced Framework, including the provision to forgive a portion of eligible debt service obligations of a HIPC as it becomes due to IDA (IDA debt relief operations). The resources available to fund IDA debt relief operations (hereafter referred to as the IBRD/IDA component of the Trust Fund) are funded by transfers from IBRD's net income or Surplus, which are approved by IBRD's Board of Governors, and from contributions of other donors to the Trust Fund. The IBRD/IDA component is used to reimburse IDA for debt service forgiven under the Enhanced Framework, to the extent resources are available. As of June 30, 2014, the Administrator had agreed to provide debt relief under the Enhanced Framework to 30 HIPCs. The resources of the IBRD/IDA component of the Trust Fund have been fully disbursed to IDA for the debt relief of 27 of these HIPCs, as of June 30, 2014.

On October 6, 2008, the Original Framework was further amended by the Executive Directors of IBRD and IDA to authorize the Trust Fund to receive contributions from bilateral donors in addition to funds received from IBRD towards IDA's cost of arrears clearance and debt cancellation under the Multi-lateral Debt Reduction Initiative (MDRI). Therefore donors may designate that their contribution to the Trust Fund be counted as part of fulfillment of their commitments to IDA's replenishment.

Note 2 - Significant accounting policies

Basis of preparation

This Statement of Receipts, Disbursements and Fund Balance (Statement) has been prepared on the cash receipts and disbursements basis of accounting, modified to record the Trust Fund's share of the pooled cash and investments at fair value (modified cash basis of accounting). Accordingly, net investment income includes the Trust Fund's share of realized and unrealized investment income/loss, with the exception of net investment income earned on contributions received from Denmark, which was credited to a separate trust fund, in accordance with the agreement with Denmark (see Note 5).

The modified cash basis of accounting is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America (U.S. GAAP) or International Financial Reporting Standards (IFRS); therefore, the Statement is not intended to be a presentation in conformity with U.S. GAAP or IFRS. Receipts, with the exception of net investment income, as described above and in Note 5, are reported when collected (i.e., when credited to the Trust Fund) rather than when pledged/earned, and disbursements are reported when paid (i.e., when debited to the Trust Fund) rather than when incurred. For example, the following transactions may be incurred in a different period than reported: (1) contributions not credited to the Trust Fund at the period end date due to timing or other reasons, and (2) any refunds of previous disbursements deemed by the Administrator, to be ineligible in accordance with the agreements.

Treatment of foreign currency transactions

This Statement is presented in U.S. dollars, which is the Trust Fund's functional and presentation currency. Transactions in currencies other than U.S. dollars are reported as follows:

- (i) Contributions received by the Trust Fund in various currencies are converted into U.S. dollars by IBRD, on behalf of the Administrator, upon receipt of funds and receipt of countersigned administration agreements. Foreign currency transaction gains or losses, if any, on conversion of the contributions are borne by the Trust Fund and are reported in contributions.
- (ii) Contributions received in currencies other than U.S. dollars and disbursed in the respective receipt currencies are reported at the market rates of exchange prevailing at the date of transactions. Any adjustment resulting from currency exchange rate changes is recognized as foreign currency adjustment in the Statement.
- (iii) At the end of each reporting period, fund balances that are not denominated in U.S. dollars are revalued at the market rates of exchange prevailing at the end of the respective reporting period. Any adjustment resulting from currency exchange rate changes is recognized as foreign currency adjustment in the Statement.

All amounts expressed in U.S. dollars unless otherwise noted

Use of estimates

The preparation of the Statement requires management to make estimates and assumptions based upon information available as of the date of the Statement. Actual results could differ from these estimates. Areas in which management makes estimates and assumptions in determining the amounts to be recorded include the fair value of the Trust Fund's share of the pooled cash and investments.

Note 3 - Trust Fund's share of the cash and investments in the Pool

Amounts paid into the Trust Fund, but not yet disbursed, are managed by IBRD, which maintains an investment portfolio (the Pool) for all of the trust funds administered by IBRD, IDA, the International Finance Corporation, the Multilateral Investment Guarantee Agency, and the International Centre for Settlement of Investment Disputes (collectively, the World Bank Group). IBRD, on behalf of the World Bank Group, maintains all trust fund assets separate and apart from the funds of the World Bank Group.

The Pool is a trading portfolio and is reported at fair value, with realized and unrealized gains/losses included in net investment income. The share in the pooled cash and investments represents the Trust Fund's share of the Pool's fair value at the end of each reporting period. The Trust Fund's share in the Pool is not traded in any market; however, the underlying assets within the Pool are traded, and reported at fair value. All investment decisions are made and performance is monitored at the Pool level.

Generally, the Pool includes cash and liquid financial instruments such as government and agency obligations, time deposits, money market securities, and asset-backed securities. Additionally, the Pool includes derivative contracts such as currency forward contracts, currency swaps, interest rate swaps, and contracts to purchase or sell mortgage-backed securities to-be-announced (TBAs). Payables and receivables associated with the investment activities are also included in the Pool. The Pool may also include securities pledged as collateral under repurchase agreements as well as derivatives with other counterparties. The Pool may also include securities receivable from resale agreements as well as derivatives for which it has accepted collateral.

The Pool is divided into sub-portfolios to which allocations are made based on fund specific investment horizons, risk tolerances and/or other eligibility requirements for trust funds with common characteristics as determined by IBRD, on behalf of the World Bank Group. An individual sub-portfolio may hold all or a portion of the types of financial instruments held by the Pool.

The Trust Fund's share of the cash and investments in the Pool has a fair value of \$356,398,475 as of June 30, 2014.

^a Contributions from the AfDB are received in the form of promissory notes, which can and are anticipated to be relieved by an offsetting credit associated with debt relief disbursements provided by the AfDB to its HIPC borrowers. These are non-cash and are not presented under amounts received. As of June 30, 2014, there are no promissory notes that are yet to be relieved against debt relief disbursements.

^b Donors may contribute in currencies other than the commitment currency.

^c Units of Account (U.A.) is the monetary unit used by the AfDB. 1 U.A. =1 SDR (Special Drawing Right).

^d The contribution amounts represent the donor's original contribution into the Interest Subsidy Fund (ISF), which is no longer required for ISF's original purpose.

^e The Netherlands separately contributed \$20 million (Unaudited, see Note 8) to Zambia for debt relief provided by the IMF over and above the debt relief called for under the HIPC Debt Initiative. This amount is not included in the Netherlands contribution amount as presented in the Statement.

Note 5 - Net investment income

Net investment income consists of the Trust Fund's allocated share of the following: interest income earned by the Pool, realized gains/losses from sales of securities, and unrealized gains/losses resulting from recording the assets held by the Pool at fair value, with the exception of net investment income on funds contributed by Denmark. Per an agreement with Denmark, net investment income pertaining to Denmark's contribution is accrued in a separate trust fund and refunded to Denmark on a periodic basis.

Note 6 - Debt relief disbursements

The specific mechanism for debt relief used by the Trust Fund (e.g., prepayment of debt, commitment to cover debt service as it falls due, clearance of arrears or the purchase and subsequent forgiveness of debt) is determined by the Administrator in consultation with each respective debtor and creditor.

In the event of a purchase and subsequent forgiveness of debt, the purchase price approximates the net present value of future cash flows of the debt. The discount rates used in determining the purchase price are the applicable monthly currency specific Commercial Interest Reference Rates (CIRRs) published by the Organization for Economic Cooperation and Development (OECD).

Note 8 - Inception to date amounts

For fiscal years from July 1, 2008 to June 30, 2012, the Trust Fund's financial statements were audited under a special purpose basis of accounting, and for the fiscal years beginning July 1, 2012, the Statement of the Trust Fund is audited under a modified cash basis of accounting. KPMG LLP expressed unqualified audit opinions on the special purpose financial statements as well as modified cash basis financial statements for the respective fiscal years. In addition, the special purpose financial statements for the period from Inception to June 30, 2008 were audited by other auditors, who expressed an unqualified audit opinion thereon, dated November 30, 2008. As a result, all activities for the period from Inception to June 30, 2014 have been subject to audit by different audit firms. However, because the amounts for the period from Inception to June 30, 2008 were not audited by KPMG LLP, the cumulative amounts have been labeled 'Unaudited'.
