## Introduction

The GAFSP Trust Fund (“Trust Fund”) was established as a Financial Intermediary Fund (FIF) in April 2010 in the World Bank. The GAFSP is a multilateral mechanism to assist in the implementation of pledges made by the G20 in Pittsburgh in September 2009. The objective is to address the underfunding of country and regional agriculture and food security strategic investment plans already being developed by countries in consultation with contributors and other stakeholders at the country-level. The GAFSP operates through two windows: Public Sector Window and Private Sector Window. The Public Sector Window is managed under the Trust Fund while the Private Sector Window is managed by the IFC. This report covers only the Public Sector Window.

The report is produced by the Trustee in accordance with the Trustee’s role in the GAFSP Governance Document as set forth under Section 5, which states:

*“The Trustee will provide to the Steering Committee regular reports on the financial status of the Trust Fund, as set forth in the Contribution Agreements.”*

Section 9 of the Standard Provisions in the Contribution Agreements for the Public Sector Window states as follows:

*“The Trustee shall maintain separate records and ledger accounts in respect of the Trust Fund funds deposited in the Trust Fund and disbursements made therefrom. The Trustee shall report to the Steering Committee annually unless otherwise agreed between the Trustee and the Steering Committee, on the status of Allocations of funding recorded by the Trustee, commitments and transfers from the Trust Fund and receipts of funds in the Trust Fund.”*

This report covers the financial status of the GAFSP Trust Fund as of March 31, 2024

## GAFSP Trust Fund Financial Summary as of March 31, 2024

### ***Pledges and Contributions:***

A pledge represents a contributor's expression of intent to make a contribution. Contributors finalize their pledges by way of a countersigned Contribution Agreement/Arrangement.

As of March 31, 2024, contributions and pledges to the Trust Fund totaled USDeq. 2,140.6 million. Of this amount, USD 2,110.4 million has been received by the Trustee in cash.

### ***Investment Income:***

As of March 31, 2024, the Trust Fund earned investment income of approximately USD 124.5 million on the liquid balances of the Trust Fund and investment income received from Supervising Entities (SEs).

### ***Funding Approvals:***

The cumulative funding decisions made by the GAFSP Steering Committee ("Steering Committee") through March 31, 2024, totaled USD 2,056.9 million, of which USD 1,897.1 million<sup>1</sup> represents allocations for projects. USD 92.5 million for Supervising Entity fees, USD 47.7 million for Trustee and Coordination Unit administrative budget, and USD 19.6 million for monitoring and evaluation.

### ***Cash Transfers:***

The Trustee has transferred a total of USD 1,521.7 million up to March 31, 2024, including USD 1,370.7 million related to projects.

### ***Funds Held in Trust:***

*Funds Held in Trust*<sup>2</sup> reflect contributions paid-in from contributors, and investment income earned less cash transfers. Funds Held in Trust as of March 31, 2024, amounted to USD 713.2 million.

### ***Funds Available for Steering Committee Funding Decisions:***

Funds available to support Steering Committee funding decisions amounted to USD 178 million as of March 31, 2024.

<sup>1</sup> Includes USD 171.3 million of allocations which is subject to Steering Committee approval of the final project design document.

<sup>2</sup> Funds Held in Trust represents balance of cash, investments and unencashed promissory notes (if any) as of the reporting date.

### 3. Asset Mix and Investment Income

#### ASSET MIX

Cash assets held in trust by the World Bank (as the Trustee) are maintained in a commingled investment portfolio (the “Pool”) for all trust funds administered by the World Bank. The assets in the Pool are managed in accordance with the investment strategy established for all trust funds administered by the World Bank.

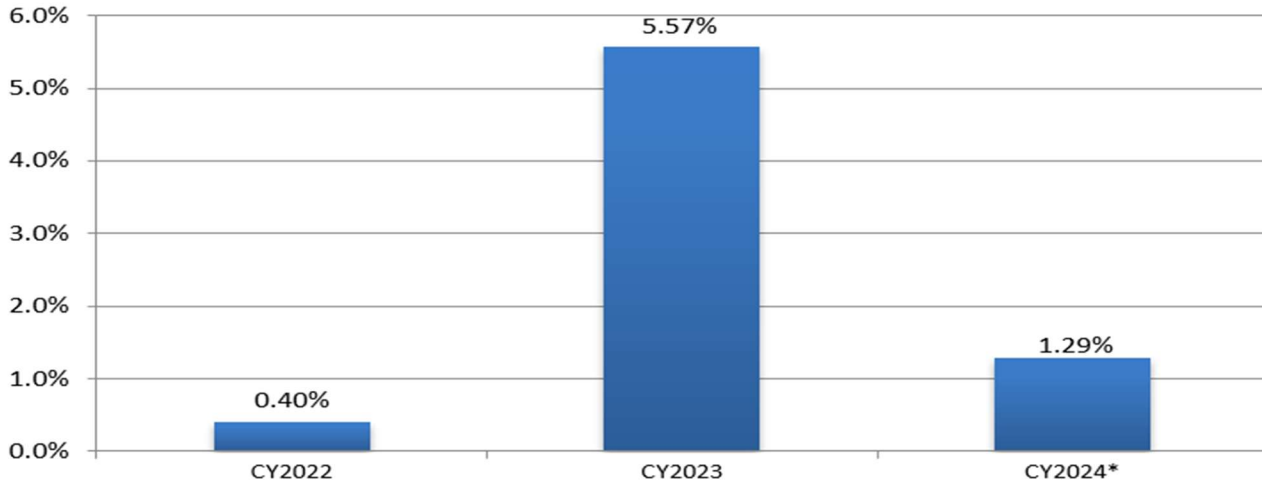

GAFSP Trust Fund assets are invested across three of the World Bank Trust Fund’s investment model portfolios, (“Model Portfolio 0” for short-term working capital needs, “Model Portfolio 1” with an investment horizon of one year, and “Model Portfolio 2” with a broader investment universe and an investment horizon of three years).

Overall, the GAFSP Trust Fund cumulative returns have been driven by its investment in longer-term model portfolios, which may be exposed to higher volatility in returns over shorter periods but are expected to have higher returns over longer periods. By asset class, the largest allocations as of March 31, 2024, are to cash and equivalents.

**INVESTMENT RETURNS**

\*non-annualized

The Trust Fund liquid portfolio earned approximately USD 124.5 million<sup>3</sup> in investment income since inception. The returns from the portfolio managed by the Trustee were 1.29% during the first quarter of calendar year 2024.

Portfolio performance during the period was driven by the interest rate path dictated by the US Federal Reserve Bank decisions that signaled that the monetary policy rates will remain “higher for longer” until inflation returns to target. Expectation of higher interest rates was underpinned by strong economic data. As a result, global real interest rates rose during the period and the long end of the yield curve steepened as both 10-year and 30-year yields increased significantly. Portfolio positioning continues to be duration neutral.

**ESG SUMMARY REPORT – GLOBAL AGRICULTURE AND FOOD SECURITY PROGRAM INVESTMENT PORTFOLIO**

As per the investment management strategy implemented by the World Bank, the funds held in trust benefit from the approach to Sustainable and Responsible Investment (SRI), which considers and incorporates Environmental, Social, and Governance (ESG) factors into the Trustee’s investment processes. The implementation of ESG Integration falls within the purview of existing authorizations by the World Bank Board. Based on the endorsement by World Bank management, starting from July 2019, the Trustee has applied ESG Integration as the default SRI approach for all portfolios managed by the World Bank, including the GAFSP Trust Fund assets.

Considering and incorporating ESG factors into investment processes should, all things being equal, lead to portfolios that have stronger ESG profiles compared to portfolios that do not explicitly consider these ESG issues. ESG Integration

<sup>3</sup> Includes investment income received from SEs.

has become part of the existing investment processes and is intended to help fulfil the existing investment objectives. The application of ESG Integration as part of the investment process would not involve any changes to the current investment objectives or risk limits for the GAFSP Trust Fund portfolio.

The GAFSP investment portfolio is primarily comprised of short-term high-grade fixed-income securities (sovereign, supranational and agency securities, and bank deposits), and as of December 31, 2023, the portfolio has an ESG Quality Score\* of 6.5 and an ESG Rating\* of A. Based on its ESG positioning in the MSCI ESG Fund Ratings Universe (upper right of Figure 1), which is deemed to be the more consistent reference indicator, GAFSP’s investment portfolio falls in the average decile of the ratings universe. This reflects the capability of GAFSP portfolio’s holdings in terms of managing key medium to long term risks and opportunities arising from Environmental, Social and Governance factors.

*Figure 1: MSCI ESG Portfolio Summary – Global Agriculture and Food Security Program Trust Fund*

\* *Note:* ESG Quality Score is based on MSCI ESG Ratings and measured on a scale of 0 to 10 (worst to best) following a rule-based methodology. ESG Ratings Momentum represents the percentage of a portfolio’s market value coming from holdings that have had an ESG Ratings upgrade, and those with a downgrade, since their previous ESG Rating assessment. The ESG Quality Score is calculated as a weighted average of ESG scores of individual holdings adjusted by ESG Ratings Momentum and ESG laggards (if any). The weight applied to the individual ESG scores is determined by the portfolio weight of individual holdings as of the reporting date. Based on the above, the ESG Quality Score, which is subject to potential skewing effect from any factor in the calculation, could slightly vary between different reporting dates along with changes in individual holdings and their portfolio weights as well as changes in ESG Ratings Momentum. Please see details on MSCI ESG Ratings Methodology [here](#).

### HIGHLIGHTS FOR THE PERIOD DECEMBER 31, 2023, THROUGH MARCH 31, 2024:

- **Funds Held in Trust** represent cumulative receipts less cumulative cash transfers, and amount to USD 713.2 million as of March 31, 2024. There was a net decrease in Funds Held in Trust of USD 120.9 million due to:
  - Increase in cash transfers by USD 131.8 million
  - Offset by an increase in total cash receipts by USD 10.9 million, towards investment income during the first quarter of calendar year 2024;
- **Funding Availability** Net increase of USD 10.6 million over the prior reporting period due to:
  - additional cash receipts of USD 10.9 million during the quarter, as mentioned above;
  - offset by new funding allocations, net of returned unused funds, totaling USD 0.3 million
