Introduction

The GAFSP Trust Fund was established as a Financial Intermediary Fund (FIF) in April 2010 in the World Bank. The GAFSP is a multilateral mechanism to assist in the implementation of pledges made by the G20 in Pittsburgh in September 2009. The objective is to address the underfunding of country and regional agriculture and food security strategic investment plans already being developed by countries in consultation with donors and other stakeholders at the country-level. The GAFSP operates through two windows: Public Sector Window and Private Sector Window. The Public Sector Window is managed under the GAFSP Trust Fund while the Private Sector Window is managed by the IFC. This report covers only the Public Sector Window.

The report is produced by the Trustee in accordance with the Trustee's role in the GAFSP Governance Document as set forth under Section 5, which states:

"The Trustee will provide to the Steering Committee regular reports on the financial status of the Trust Fund, as set forth in the Contribution Agreements."

Section 9 of the Standard Provisions in the Contribution Agreements for the Public Sector Window states as follows:

"The Trustee shall maintain separate records and ledger accounts in respect of the Trust Fund funds deposited in the Trust Fund and disbursements made therefrom. The Trustee shall report to the Steering Committee annually unless otherwise agreed between the Trustee and the Steering Committee, on the status of Allocations of funding recorded by the Trustee, commitments and transfers from the Trust Fund and receipts of funds in the Trust Fund."
