

Green Climate Fund Trust Fund

Financial Report

Prepared by the Interim Trustee

(The World Bank)

As of September 30, 2017

Green Climate Fund Trust Fund Summary as of September 30, 2017

Notes:

1. The World Bank provides trustee services to the Green Climate Fund (GCF), on an interim basis. This report covers the financial status of the Green Climate Fund Trust Fund (GCF Trust Fund), established at the World Bank for this purpose.
2. This report does not include financial information related to contributions to the GCF provided through other channels (e.g. via UNFCCC Secretariat or directly to the GCF Secretariat).
3. Funding Decisions of the GCF are reported and maintained by GCF secretariat. This report contains the transfers made by interim trustee to recipients based on those funding decision requests.

*Non-USD balances have been revalued into equivalent USD based on 09/30/2017 currency exchange rates. Due to rounding, figures presented may not add up to total/s provided.

^{2/} GCFTF balances are invested in a capital preservation investment tranche ("Model Portfolio 1") which is managed to an objective of a very low probability of losses over a time horizon of 1 year. Gains or losses reported in quarterly or other interim reports may show mark-to-market losses that may or may not be realized at the end of the investment horizon.

4. Asset Mix and Investment Income

ASSET MIX

Funds held in trust by the World Bank (as the Trustee) are maintained in a commingled investment portfolio (the "Pool") for all trust funds administered by the World Bank. Within this Pool, GCF funds are invested in a short term, high quality fixed income portfolio with an investment horizon of one year. As of September 30, 2017, the largest allocations by asset class were to government securities, money market instruments and agencies.

INVESTMENT INCOME

The GCF Trust Fund balances are invested in accordance with the investment strategy established for all trust funds administered by the World Bank. On July 1, 2015, the World Bank formally adopted the Conditional Value-at-Risk (CVaR) measure as the risk constraint in the management of trust funds. GCF Trust Fund balances are managed such that the expected maximum loss, as measured by the 99% CVaR, is not to exceed 1% at the portfolio's investment horizon. The 99% CVaR represents the average portfolio loss in the worst 1% of loss cases.

The investment return on GCF Trust Fund balances during the CY 17 (Jan 1, 2017 to September 30, 2017) was 1.07%. The performance was strong across all asset classes in the portfolio during the year.
