Introduction

The Global Infrastructure Facility (GIF) is a global open platform that facilitates the preparation and structuring of complex public-private partnerships to enable mobilization of private sector and institutional investor capital for infrastructure. The GIF platform coordinates and integrates the efforts of Multilateral Development Banks, private sector investors and financiers, and governments interested in infrastructure investment in Emerging Markets and Developing Economies.

The GIF Trust Fund was established in March 2015. This report covers the financial status of the GIF Trust Fund¹, and is produced by the Trustee in accordance with the Trustee's role in the GIF Partnership Framework, as set forth under Section D, which states:

“The Trustee will provide to the Governing Council regular reports on the financial status of the Trust Fund.”

In addition, Section 7 of the Standard Provisions in the Administration Agreement/Arrangement states as follows:

“The Trustee will maintain separate records and ledger accounts in respect of the funds deposited in the GIF Trust Fund and transfers made therefrom. The Trustee will report to the Governing Council on the financial status of the Trust Fund every six months (or at such other frequency as the Trustee and the Governing Council may agree), in accordance with the provisions set out in the GIF Partnership Framework and the GIF Operating Guidelines, including information on the status of Contributions, investment income, commitments, transfers and funds available for allocation of funding by the Governing Council and/or the Management Unit, as applicable.”

¹ This report does not include financial information related to contributions to the GIF provided through other channels (e.g. via a Single Donor Trust Fund).

GIF Trust Fund Financial Summary as of June 30, 2024

Pledges and Contributions:

A pledge represents a contributor's expression of intent to make a contribution. Pledges are formalized into Contributions by way of a countersigned Administration Agreement/Arrangement.

As of June 30, 2024, pledges and contributions to the GIF Trust Fund totaled USDeq. 183.54 million has been fully paid by contributors.

Investment Income:

As of June 30, 2024, the GIF Trust Fund has earned investment income (since inception) of approximately USD 10.30 million from the undisbursed balance of the Trust Fund.

In addition, the investment income received from the technical partners was USD 0.25 million.

Reflows received from Technical Partners from reimbursable grants amounted to USD 10.98 million as of June 30, 2024.

Funding Approvals:

Cumulative net funding decisions (approvals by the GIF Governing Council) through June 30, 2024, amounted to USD 184.67 million.

Cash Transfers:

Based on GIF Governing Council decisions, the Trustee has transferred a total of USD 161.25 million as of June 30, 2024 including USD 112.19 million related to projects.

Funds Held in Trust:

Funds Held in Trust reflect contributions paid-in from contributors, investment income earned, and reflows less cash transfers. Funds Held in Trust as of June 30, 2024 amounted to USD 43.81 million.

Funds Available for GIF Governing Council Funding Decisions:

Funds available for GIF Governing Council funding decisions amounted to USD 20.39 million as of June 30, 2024. This represents a decrease of USD 9.34 million from December 31, 2023.

3. Asset Mix and Investment Income

ASSET MIX

Funds held in trust by the World Bank (as the Trustee) are maintained in a commingled investment portfolio (the “Pool”) for all trust funds administered by the World Bank. Within this pool, the GIF funds are invested in a short term, high quality fixed income portfolio with an investment horizon of up to one year.

The investment objectives for the GIF Trust Fund are to optimize investment returns subject to preserving capital and maintaining adequate liquidity to meet foreseeable cash flow needs, within a conservative risk management framework².

By asset class, as of June 30, 2024, the portfolio is concentrated in government securities, cash & money market instruments, and covered bonds.

² World Bank defines the market risk measures and tolerances for Model Portfolios of 1-year or less investment horizon as 99% CVaR be no worse than -0.25%; and for Model Portfolios of longer than 1-year but less or equal to 5-year investment horizon as 99% CVaR be no worse than -1%.

Asset Mix and Investment Income (contd..)

INVESTMENT RETURNS

The GIF funds are invested in accordance with the investment strategy established for all the trust funds administered by the World Bank. The GIF Trust Fund portfolio has returned 2.78% for first half of the calendar year 2024 and earned approximately USD 10.30 million in investment income since inception.

Fixed income portfolio performance was positive during the fourth quarter of FY2024. Fourth quarter of fiscal year 2024 started with sharp spikes in treasury yields owing to upward surprises in inflation and economic activity resulting in markets pricing just one interest rate cut in 2024. The US 10-year treasury yields spiked 48 bps to 4.68% in April. US Treasury yields declined during May as inflation came in lower than expected. Fed officials maintained the need to see sustained improvement in inflation towards the 2% target before any changes to the monetary policy. Further softening of inflation and economic data in June lead to rates rally and heightened market expectations that the Fed is closer to achieving its 2% inflation target, which could open the door to interest rate cuts. Treasury yields were 10-15 bps lower across the curve with Ten-year yields getting as low as 4.22% during the month. The fixed income portfolios continue to be duration neutral to the benchmark.

ESG SUMMARY REPORT – GLOBAL INFRASTRUCTURE FACILITY TRUST FUND (GIF) INVESTMENT PORTFOLIO

As per the investment management strategy implemented by the World Bank, the funds held in trust benefit from the approach to Sustainable and Responsible Investment (SRI), which considers and incorporates Environmental, Social, and Governance (ESG) factors into Trustee’s investment processes. The implementation of ESG Integration falls within the purview of existing authorizations by the World Bank Board. Based on the endorsement by the World Bank management, starting from July 2019, the Trustee has applied ESG Integration as the default SRI approach for all portfolios managed by the World Bank, including for the GIF Fund assets.

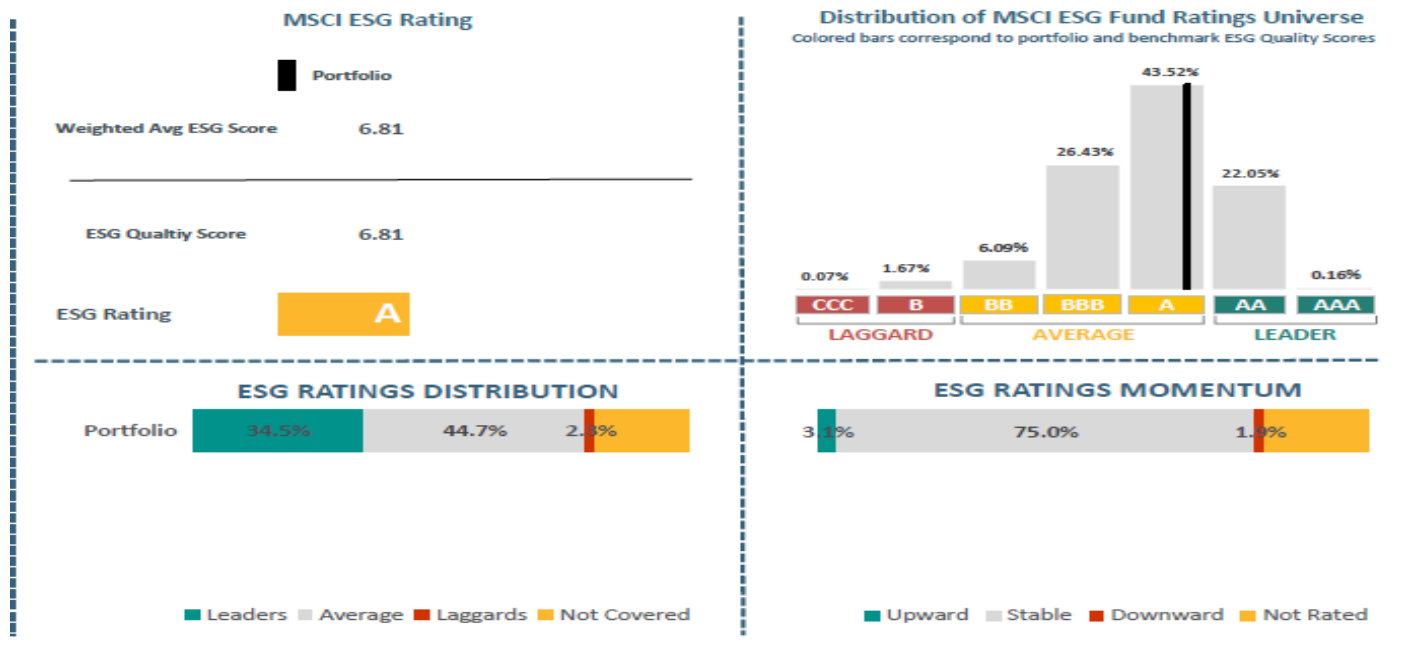

Asset Mix and Investment Income (contd..)

Considering and incorporating ESG factors into investment processes should, all things being equal, lead to portfolios that have stronger ESG profiles compared to portfolios that do not explicitly consider these ESG issues. ESG Integration has become part of the existing investment processes and is intended to help fulfil the existing investment objectives. The application of ESG Integration as part of the investment process would not involve any changes in the current investment objectives or risk limits for the GIF Fund portfolio.

The GIF Fund investment portfolio is primarily comprised of short-term high-grade fixed-income securities (sovereign, supranational and agency securities and bank deposits), and as of June 30, 2024, the portfolio has an ESG Quality Score* of 6.81 and an ESG Rating* of A. Based on its ESG positioning in the MSCI ESG Fund Ratings Universe (upper right of Figure 1), which is deemed to be the more consistent reference indicator, GIF Fund’s investment portfolio falls within the average group of the ratings universe. This reflects average capability of GIF Fund portfolio’s holdings in terms of managing key medium to long term risks and opportunities arising from Environmental, Social and Governance factors.

Figure 1: MSCI ESG Portfolio Summary – Global Infrastructure Facility Trust Fund

Note: ESG Quality Score is based on MSCI ESG Ratings and measured on a scale of 0 to 10 (worst to best) following a rule-based methodology. ESG Ratings Momentum represents the percentage of a portfolio’s market value coming from holdings that have had an ESG Ratings upgrade, and those with a downgrade, since their previous ESG Rating assessment. The ESG Quality Score is calculated as a weighted average of ESG scores of individual holdings adjusted by ESG Ratings Momentum and ESG laggards (if any). The weight applied to the individual ESG scores is determined by the portfolio weight of individual holdings as of the reporting date. Based on the above, the ESG Quality Score, which is subject to potential skewing effect from any factor in the calculation, could slightly vary between different reporting dates along with changes in individual holdings and their portfolio weights as well as changes in ESG Ratings Momentum. Please see details on MSCI ESG Ratings Methodology [here](#).

Note: sub-totals may not add up due to rounding

a/ Amount received from Technical Partners related to reflows from reimbursable grants.

HIGHLIGHTS FOR THE PERIOD DECEMBER 31, 2023 THROUGH JUNE 30, 2024:

- **Funds Held in Trust** represent cumulative receipts, investment income earned and reflows, less cumulative cash transfers, amounted to USD 43.81 million as of June 30, 2024. Funds Held in Trust increased by USD 1.39³ million due to cash receipts from donors and investment income exceeding cash transfers to Technical Partners. The summary break-down of cash movement during the period is as follows:
 - cash receipts totaled to USD 3 million, investment income earned during the period amounted to USD 1.52 million.
 - partially offset by net increase in cash transfers of USD 3.13 million as compared to the previous reporting period.
- **Funding decisions pending cash transfer** amounted to USD 23.42 million, representing an increase of USD 10.72 million due to new funding decisions of USD 13.85 million outpacing the increase in cash transfers of USD 3.13 million during the period.
- **Funding Availability** amounted to USD 20.39 million representing a decrease of USD 9.34 million because of the factors outlined above.

³ The amount may not add up due to the rounding.
