Introduction

The information contained in this report is prepared based on financial information as of March 31, 2013.

The GRIF is a fund for the financing of activities identified under the Government of Guyana's Low Carbon Development Strategy (LCDS). The fund will receive up to NOK 1.5 billion from Norway in performance-based payments for the period up until 2017, based on an independent verification of Guyana's deforestation and forest degradation rates and progress on REDD+ enabling activities. The World Bank's International Development Association (IDA) was invited by Guyana and Norway to act as Trustee and will be responsible for providing financial intermediary services to the GRIF.

This report is presented to the GRIF Steering Committee in accordance with the roles and responsibilities of the trustee set forth in section 8 of the Standard Provisions for the GRIF (Annex 1 of the Administration Agreement between Norway and IBRD).

- The table above shows cumulative receipts, including investment income, minus cash transfers. Investment income earned to date amounts to USD 0.7 million. The Trustee has maintained the fund balance in a liquid portfolio comprised almost exclusively of cash, reflecting the stated preferences of the Steering Committee for funds transfers to Partner Entities at the earliest possible opportunity. The Trustee is therefore holding these funds in a liquid portfolio in anticipation of Steering Committee funding decisions and requests to the Trustee for funds transfers to Partner Entities.
- Funds available to support GRIF Steering Committee funding decisions refers to “Funds Held in Trust” with no restrictions, less funding decisions to date for which cash transfers are still pending.
