Introduction

The Haiti Reconstruction Fund (HRF) is a partnership between the international community and the Government of Haiti to help finance post-earthquake reconstruction. The Latin America and Caribbean Region of the World Bank acts as the HRF Secretariat; and the Development Finance Vice-Presidency acts as the Trustee for a Financial Intermediary Fund (FIF) in support of the HRF. The HRF mobilizes, coordinates and allocates contributions from bilateral and other donors to finance high-priority projects, programs and budget support. Proponents partner with the Inter-American Development Bank (IDB), the United Nations Development Programme (UNDP)¹ or the World Bank (WB and IFC) to ensure that international standards for quality, good governance and financial management are met.

The Trustee provides administrative and financial services to the HRF Steering Committee and donors, by receiving contributions from donors to the FIF, investing liquid assets pending cash transfer, and transferring funds to the HRF Partner Entities. Working closely with the HRF Secretariat, the Trustee also records funding decisions made by the Steering Committee.

The Trustee periodically provides to the Donors and the Steering Committee reports on the financial status of the Trust Fund.² The information contained in this report is prepared based on financial information as of June 30, 2020.

Following the extension of the Trust Fund that was approved by all donors on December 24, 2017, the Trust Fund will remain open until June 30, 2021 for monitoring and reporting of the HRF funded projects under implementation. The Trust Fund will accept the return of unused project funds and the posting/return of earned investment income from Partner Entities. At the request of the HRF Steering Committee, the Trustee has discontinued commitments and disbursements from the Trust Fund after December 31, 2017.

¹ The UNDP, through its Multi-donor Trust Fund Office, acts as Administrative Agent of the Participating UN Organizations in the United Nations Development Group Haiti Reconstruction Fund.

² The Trustee's financial status reports are publicly available at: www.worldbank.org/fiftrustee

3. Asset Mix and Investment Income

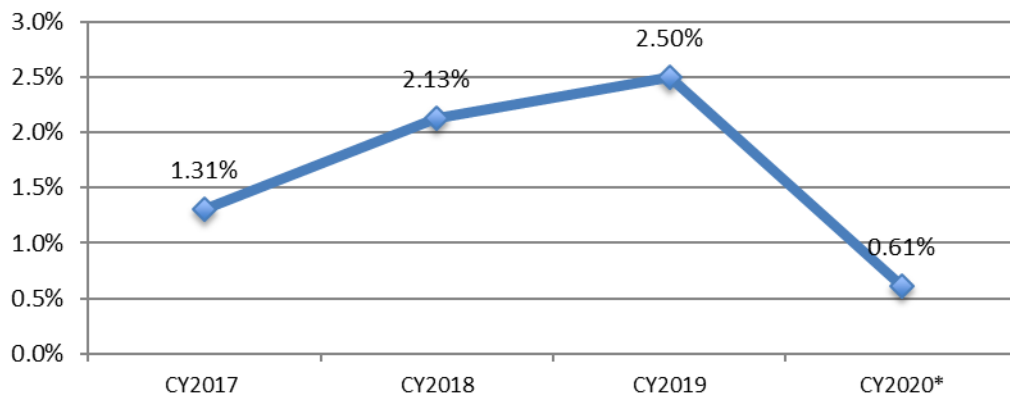

ASSET MIX

Funds held in trust by the World Bank (as the Trustee) are maintained in a commingled investment portfolio (the “Pool”) for all trust funds administered by the World Bank. The assets in the Pool are managed in accordance with the investment strategy established for all trust funds administered by the World Bank. The Haiti Reconstruction Trust Fund funds are invested in cash portfolio of the World Bank’s Trust Fund investment pool. This portfolio comprises bank deposits and investments in money market instruments with an investment horizon of less than 3 months. Typically, funds invested in a cash portfolio represent working capital and funds that are expected to be disbursed in less than a year.

On July 1, 2015, the World Bank formally adopted the Conditional Value-at-Risk (CVaR) measure as the risk constraint in the management of trust funds. Funds are managed such that the expected maximum loss, as measured by the CVaR, at the portfolio’s investment horizon, is not to exceed 1% with 99% confidence.

INVESTMENT RETURNS

Funds Held in Trust are invested in a cash portfolio of the World Bank’s Trust Fund investment pool. This portfolio comprises bank deposits and investments in money market instruments with an investment horizon of less than 3 months. Typically, funds invested in a cash portfolio represent working capital and funds that are expected to be disbursed in less than a year. As of June 30, 2020, the HRF Trust Fund has earned investment income of approximately USD 2.5 million on the undisbursed balance of the Trust Fund. The HRF Trust Fund liquid portfolio has returned 0.61% through the calendar year to June 30, 2020. In addition, the investment income of USD 2.38 million received from the partner entities UNDP and IDB.
