Introduction

The MENA Transition Fund was established as a Financial Intermediary Fund (FIF) in 2012 at the request of the Deauville Partnership with Arab Countries in Transition. The objective of the Transition Fund is to improve the lives of citizens in transition countries in the Middle East and North Africa, and to support the transformation currently underway in several countries in the region by providing grants for technical cooperation to strengthen governance and public institutions, and foster sustainable and inclusive economic growth by advancing country-led policy and institutional reforms.

The World Bank serves as the Trustee for the Transition Fund. The Trustee provides administrative and financial services to the Transition Fund Steering Committee and donors, by receiving contributions from donors to the Trust Fund, investing liquid assets pending cash transfer, and transferring funds to the Implementation Support Agencies (ISAs). Working closely with the Transition Fund Coordination Unit, the Trustee also records funding decisions made by the Steering Committee.

Following the final meeting of the MENA Transition Fund's Steering Committee, the Acting Executive Secretary indicated that the End Approval Date is December 11, 2018, after which no new projects are expected to be approved and therefore no more commitments from the Trust Fund are made. Disbursement of funds to ISAs was processed until **December 11, 2021**. The Trust Fund will remain open until December 31, 2022 for the sole purpose of receiving unused funds of the MENATF funded activities.

The Trustee will continue to provide to the donors and the Steering Committee reports on the financial status of the Trust Fund.¹ The information contained in this report is prepared based on financial information as of June 30, 2022.

3. Asset Mix and Investment Income

ASSET MIX

Funds held in trust by the World Bank (as the Trustee) are maintained in a commingled investment portfolio (the “Pool”) for all trust funds administered by the World Bank. Within this pool, the MENATF funds are invested in a short term, high quality fixed income portfolio with an investment horizon of up to one year.

The portfolio allocation by asset class has the largest allocations to government securities and money-market instruments.

INVESTMENT RETURNS

The MENA Trust Fund balances are invested in accordance with the investment strategy established for all trust funds administered by the World Bank. Funds are managed such that the expected maximum loss, as measured by the CVaR, in the worst 1% of cases will not exceed 0.25% at the portfolio’s investment horizon.

The Transition Fund portfolio has earned approximately USD 7.12 million in investment income since inception to June 30, 2022. It has returned -0.04% since the beginning of this calendar year through June 30, 2022. The negative return was caused by rising yields over the last quarter, which mostly affected fixed income holdings with a relatively longer duration profile. The above-mentioned investment portfolio excludes the additional investment income of USD 1.39 million received from ISAs as of June 30, 2022.

4. Cumulative Funding Decisions

In USD millions

CUMULATIVE PROJECT FUNDING DECISIONS

Since inception to June 30, 2022 funding approvals made by the Transition Fund Steering Committee totaled USD 198.62 million. Projects represent about 90%, indirect costs for ISAs 8%, and administrative budgets for the Coordination Unit and the Trustee 2% (see Annex I for details).

FUNDING DECISIONS BY RECIPIENT

The chart shows the funding decisions for projects and indirect costs totaling USD 215.91 million by recipient. Egypt (23%), Jordan (23%), Tunisia (19%) and Morocco (18%) correspond to the main recipients of MENATF funds.

The four countries combined represent 83% of funding decisions made by the Steering Committee from Inception to June 30, 2022.

FUNDING DECISIONS BY ISA

The chart shows the funding decisions for projects and indirect costs totaling USD 215.91 million by ISA.

IBRD accounts for approx. half of the funding decisions for projects and indirect costs (52%); followed by OECD at 15% and AFDB at 10%.
