Introduction

The MENA Transition Fund was established as a Financial Intermediary Fund (FIF) in 2012 at the request of the Deauville Partnership with Arab Countries in Transition. The objective of the Transition Fund is to improve the lives of citizens in transition countries in the Middle East and North Africa, and to support the transformation currently underway in several countries in the region by providing grants for technical cooperation to strengthen governance and public institutions, and foster sustainable and inclusive economic growth by advancing country-led policy and institutional reforms.

The World Bank serves as the Trustee for the Transition Fund. The Trustee provides administrative and financial services to the Transition Fund Steering Committee and donors, by receiving contributions from donors to the Trust Fund, investing liquid assets pending cash transfer, and transferring funds to the Implementation Support Agencies (ISAs). Working closely with the Transition Fund Coordination Unit, the Trustee also records funding decisions made by the Steering Committee.

The Trustee periodically provides to the donors and the Steering Committee reports on the financial status of the Trust Fund.[1] The information contained in this report is prepared based on financial information as of June 30, 2020.

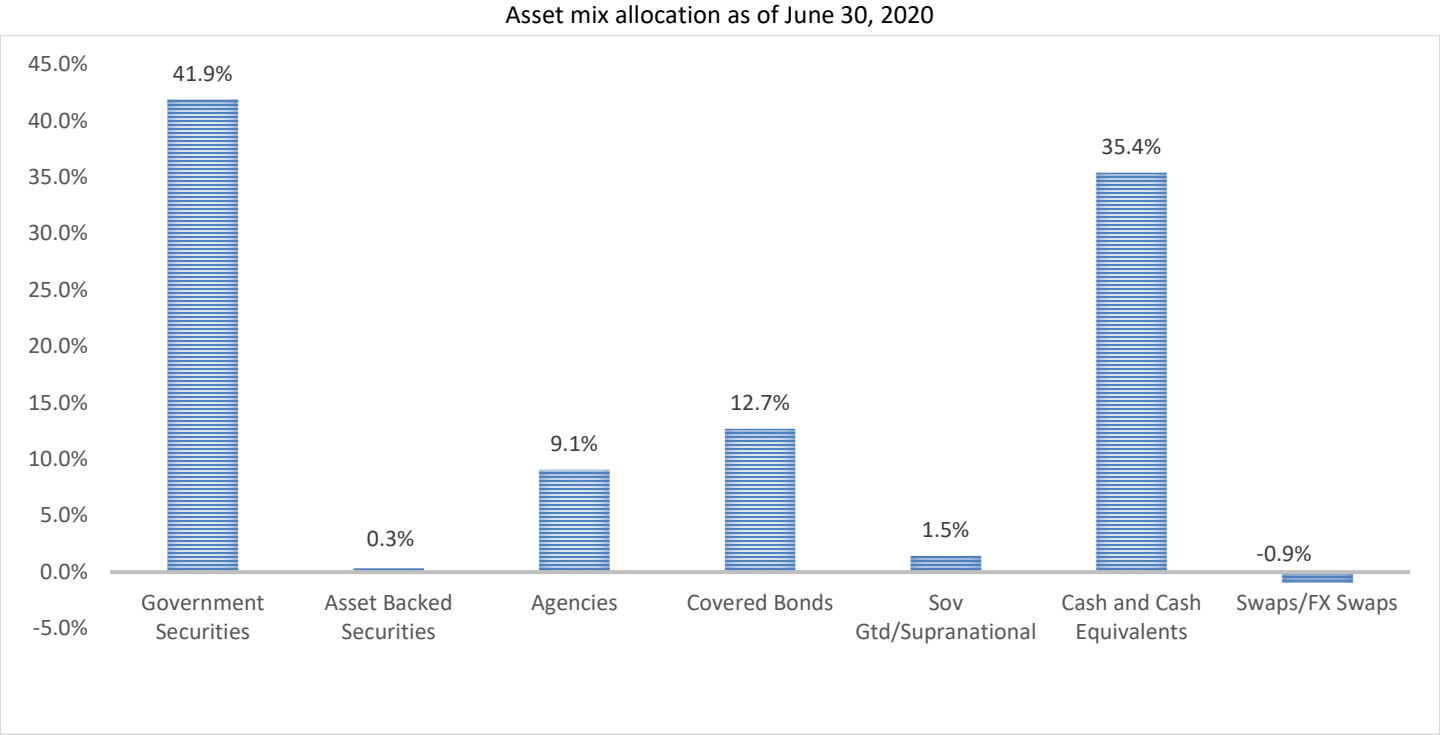
3. Asset Mix and Investment Income

ASSET MIX

Funds held in trust by the World Bank (as the Trustee) are maintained in a commingled investment portfolio (the "Pool") for all trust funds administered by the World Bank. As of July 1, 2015, the World Bank adopted the Conditional Value-at-Risk (CVaR) measure as the risk constraint in the management of trust funds. Funds are managed such that the expected maximum loss, as measured by the CVaR, at the portfolio's investment horizon, is not to exceed 1% with 99% confidence.

The portfolio allocation by asset class has the largest allocations to government securities and cash and cash equivalents.



INVESTMENT RETURNS

The MENATF funds are invested in accordance with the investment strategy established for the trust funds administered by the World Bank. The MENATF funds are invested in a short term fixed income portfolio with an investment horizon of one year. The Transition Fund portfolio, with the cash balance of approximately USD 21.3 million as of June 30, 2020, earned approximately USD 7.0 million in investment income since inception. In addition, the investment income received from ISAs is USD 1.3 million.

4. Cumulative Funding Decisions
