Introduction

The MENA Transition Fund was established as a Financial Intermediary Fund (FIF) in 2012 at the request of the Deauville Partnership with Arab Countries in Transition. The objective of the Transition Fund is to improve the lives of citizens in transition countries in the Middle East and North Africa, and to support the transformation currently underway in several countries in the region by providing grants for technical cooperation to strengthen governance and public institutions, and foster sustainable and inclusive economic growth by advancing country-led policy and institutional reforms.

The World Bank serves as the Trustee for the Transition Fund. The Trustee provides administrative and financial services to the Transition Fund Steering Committee and donors, by receiving contributions from donors to the Trust Fund, investing liquid assets pending cash transfer, and transferring funds to the Implementation Support Agencies (ISAs). Working closely with the Transition Fund Coordination Unit, the Trustee also records funding decisions made by the Steering Committee.

The Trustee periodically provides to the donors and the Steering Committee reports on the financial status of the Trust Fund.¹ The information contained in this report is prepared based on financial information as of December 31, 2015.

¹ The Trustee's financial status reports are publicly available at: www.worldbank.org/fiftrustee

b/in currencies of contribution

c/ the maximum agreed contribution amount is USD 50 million, but the contribution at no time exceed twenty percent (20%) of the cumulative total of funds pledged by all donors to the Trust Fund

3. Asset Mix and Investment Income

ASSET MIX

Funds held in trust by the World Bank (as the Trustee) are maintained in a commingled investment portfolio (the "Pool") for all trust funds administered by the World Bank. On July 1, 2015, the World Bank formally adopted the Conditional Value-at-Risk (CVaR) measure as the risk constraint in the management of trust funds. Funds are managed such that the expected maximum loss, as measured by the CVaR, at the portfolio's investment horizon, is not to exceed 1% with 99% confidence.

INVESTMENT RETURNS

The Transition Fund funds are invested in a short horizon portfolio of the World Bank's Trust Fund investment pool. This portfolio majorly comprises investments in government securities, Agency and corporates with an investment horizon of up to one year. The Transition Fund liquid portfolio (which totaled approximately USD 48.7 million as of December 31, 2015) earned approximately USD 1 million in investment income since inception.

4. Cumulative Funding Decisions
