## Introduction

The information contained in this report is prepared based on financial information of the Special Climate Change Fund (SCCF) Trust Fund as of September 30, 2016.

The SCCF was established following the decision of the Conference of the Parties to the United Nations Framework Convention on Climate Change (the “UNFCCC”) at its Seventh Session (“COP 7”) in November 2001 to invite the Global Environment Facility (“GEF”) to operate such a fund (Decision 7/CP.7 of the UNFCCC). At its May 15-17, 2002 biannual meeting, the GEF Council (the “Council”) approved the arrangements proposed for the establishment of such a fund and invited IBRD to act as its Trustee (GEF/C.19/6).

Under the SCCF Trust Fund are the Program for Adaptation and Program for Technology Transfer, both of which have been established under the SCCF following the endorsement by the Council of such Programs on the basis of document GEF/C.24/12, Programming to Implement the Guidance for the Special Climate Change Fund adopted by the Conference of the Parties to the United Nations Framework Convention on Climate Change at its Ninth Session.

The report is produced by the Trustee in accordance with the Trustee’s role as set forth in the paper entitled Arrangements for the Establishment of the New Climate Change Funds (GEF/C.19/6) which states:

*“[...] the World Bank would be responsible for the financial management of each fund, including: [...] (iv) the preparation of financial reports regarding the investment and use of the funds’ resources; and (v) regular reporting to the Council on the status of the funds’ resources.”*

This report provides (i) a snapshot of the financial situation of the SCCF Trust Fund since its inception to September 30, 2016 and some of the recent developments from April 1, 2016 to September 30, 2016; (ii) the status of pledges and contributions, and (iii) the details of financial activities of the SCCF Trust Fund.

### 3. Asset Mix and Investment Income

#### ASSET MIX

Funds held in trust by the World Bank (as the Trustee) are maintained in a commingled investment portfolio (the “Pool”) for all trust funds administered by the World Bank. The assets in the Pool are managed in accordance with the investment strategy established for all trust funds administered by the World Bank. The chart reflects the asset mix of the portfolio in which SCCF funds are invested as of August 31, 2016.<sup>2</sup>

*Note: The negative allocation to money market/financial instruments is a result of repurchase agreements that are used to purchase yield enhancing securities. The negative position in swaps is primarily due to changes in foreign currency exchange (FX) rates in cross currency basis swaps. Such swap instruments are used to implement currency hedges on bond positions within the portfolio.*

#### INVESTMENT RETURNS

The SCCF funds are invested in accordance with the investment strategy established for all of the trust funds administered by the World Bank. On July 1, 2015, the World Bank formally adopted the Conditional Value-at-Risk (CVaR) measure as the risk constraint in the management of trust funds. Funds are managed such that the expected maximum loss, as measured by the CVaR, at the portfolio’s investment horizon, is not to exceed 1% with 99% confidence. The SCCF Trust Fund liquid portfolio (which totaled approximately USD 155.11 million at end-September 2016) earned approximately USD 15.87 million in investment income since inception. In addition the investment income received from the external agencies is USD 0.16 million.
